Preventative Visit Policy

During your child's well-visit appointment, our healthcare providers are committed to addressing all aspects of your child's health and well-being. However, it is important to note that if additional concerns or issues are addressed during the well-visit that are not typically covered under preventive care, such as addressing acute illnesses or chronic conditions, your insurance provider may require a co-payment or apply the charges towards your deductible.

Policy Details:

Scope: This policy applies to all well-visit appointments for pediatric patients at our healthcare facility.

Additional Concerns or Issues: If, during your child's well-visit appointment, our healthcare provider addresses any additional concerns or issues beyond the scope of preventive care, including but not limited to acute illnesses, chronic conditions, or other medical needs, your insurance provider may require you to pay a co-payment or apply the charges towards your deductible.

Notification: Our healthcare providers will inform you if any additional concerns or issues are addressed during the well-visit appointment that may incur additional charges not covered under preventive care.

Insurance Coverage: It is important to review your insurance policy to understand your coverage for well-visit appointments and any associated co-payments or deductibles that may apply to services rendered beyond preventive care.

Patient Responsibility: As the patient or legal guardian, you are responsible for understanding your insurance coverage and any associated costs for services rendered during your child's well-visit appointment.

Acknowledgment:

By signing below, I acknowledge that I have read and understand the above policy regarding additional charges for addressing concerns or issues during my child's well-visit appointment. I understand that my insurance provider may require a co-payment or apply the charges towards my deductible for services rendered beyond preventive care during the well-visit appointment.
